

## **Feedback Analysis (2019-2020)**

### **F-I Feedback from Students**

This year the feedback from students about the teachers was taken on three broad aspects of teaching and marked on 5-point scale. An additional column was provided for adding comments and suggestions for improvement. It was a random sampling. The results showed that the students felt that maximum of the teachers have excellent knowledge on their subject content and possess good teaching skills. They were marked from good to excellent in their punctuality and overall efficiency. Teachers were informed about their individual rating and told to maintain the quality teaching as usual in the college and to achieve more excellence in all spheres of teaching learning process.

### **F – II**

The feedback form from students about the overall evaluation of the programme & teaching of the institute was judged on the basis of 15 parameters on a 5-point scale. It was found that use of technological aids were marked good by almost all the student sample. Most of the students were satisfied with the examination pattern followed by the institute. Canteen facilities and library facilities were also marked good by almost all of the students. Some students showed concern about average internet facilities in the college, which was already taken into consideration and measures to improve internet speed and access were already initiated. Overall programme was marked good by all the students.

### **F – III**

F-III is regarding the parent feedback about the institute. The institute was judged on 15 parameters on a 5-point scale by the parents of the students. No major drawback was found by parents of the institute. Most of the parents found that placement facilities and infrastructure were the plus point of the institute. Practical exposure to students during teaching practice helps students to apply their teaching skills appropriately was highly appreciated by the parents. Enhancement in communication skills of their wards was found rated from good to excellent in most of samples of the feedback form. Most of the parameters were judged good to excellent by the parents only internet facilities were judged average by some parents. For internet facilities improvement, steps were already being done.
